REGULAR MEETING

THURSDAY, FEBRUARY 29, 1996 - 2:00 P.M.

VETERANS BUILDING
COMMITTEE ROOM, ROOM 410
401 VAN NESS AVENUE

MEMBERS: Supervisors Barbara Kaufman, Susan Leal, Mabel Teng

CLERK: Joni Blanchard

* * * * *

Disability Access

Both the Committee Room (Room 410) and the Chamber (Room 404) are wheelchair accessible. The closest accessible BART Station is Civic Center, four blocks from the Veterans Building. Accessible MUNI lines serving this location are: #42 Downtown Loop and the METRO stations at Van Ness and Market and at Civic Center. For more information about MUNI accessible services, call 923-6142.

There is accessible parking in the vicinity of the Veterans Building adjacent to Davies Hall and the War Memorial Complex.

Assistive listening devices are available for use in the Meeting Room and the Board Chamber. A device can be borrowed prior to or during a meeting. Borrower identification is required and must be held by Room 308 staff.

The following services are available on request 48 hours prior to the meeting or hearing:

For American sign language interpreters or the use of a reader during a meeting, contact Violeta Mosuela at (415) 554-7704.

For a large print copy of an agenda, contact Moe Vazquez at (415) 554-4909.

In order to assist the City's efforts to accommodate persons with severe allergies, environmental illness, multiple chemical sensitivity or related disabilities, attendees at public meetings are reminded that other attendees may be sensitive to various chemical based products. Please help the City to accommodate these individuals.

Government's duty is to serve the public, reaching its decisions in full view of the public. Commissions, boards, councils and other agencies of the City and County exist to conduct the people's business. The Sunshine Ordinance assures that deliberations are conducted before the people and that City operations are open to the people's review. For more information on your rights under the Sunshine Ordinance (Chapter 67 of the San Francisco Administrative Code) or to report a violation of the ordinance, contact the Sunshine Ordinance Task Force at 554-6075.

TO: Select Committee on Charter Implementation
FROM: Budget Analyst Recommendations for meeting of
SUBJECT: April 23, 1996 Select Committee on Charter Implementation Meeting

Item 3 - File 293-95-1

Item: Hearing to consider the creation of the Department of Neighborhood Services.

Description: This hearing is to consider the creation of a new Department of Neighborhood Services. According to the Office of the Sponsor of this hearing, the creation of a Department of Neighborhood Services would entail the formation of a number of inter-disciplinary teams, consisting of existing staff from various City departments, who would provide basic City services, such as, for example, code enforcement, planning, tree services and parks and recreation, to individual neighborhoods. The Office of the Sponsor advises that citizens would be able to obtain information from one centralized department for any type of problem which citizens may be having by contacting staff in the proposed new Department of Neighborhood Services. The Office of the Sponsor advises that the new department would be formed by transferring existing staff

Memo to Select Committee on Charter Implementation
April 23, 1996 Select Committee on Charter Implementation Meeting

from other City departments into the Department of Neighborhood Services.

According to the Office of the Sponsor, the Department of Neighborhood Services would enable the City to consolidate key neighborhood-related services into one unit, thereby combining resources in a more focused manner and improving the City's response to neighborhood problems, concerns and issues. The Office of the Sponsor advises that the potential benefits of the proposed Department of Neighborhood Services include (1) coordinated delivery of a variety of City services to residents; (2) easy accessibility for citizen inquiry; (3) quick resolution of neighborhood problems; (4) greater accountability to neighborhood issues; (5) increased citizen participation in decision-making; and (6) budget savings through the elimination of duplicative administrative positions and functions.

According to the Office of the Sponsor, the proposed Department of Neighborhood Services could include consolidated services related to parks and recreation, code enforcement, nuisance abatement, parking and traffic coordination, public safety, planning, and/or permit procedures. The Office of the Sponsor advises that, through a series of planned hearings, a list of reforms and initiatives which address immediate concerns and the steps necessary to create the Department of Neighborhood Services should be developed before the Department of Neighborhood Services is finally established.

Comments:

1. After a series of public hearings, the City of Sacramento created a Neighborhood Services Department in 1994. According to Mr. Gary Ziegenfuss of Sacramento's Neighborhood Services Department, the specific purposes of Sacramento's Department of Neighborhood Services are to (a) provide coordinated and comprehensive delivery of neighborhood-related services; (b) improve accessibility to City government; (c) increase government responsiveness; and (d) increase citizen participation in City programs, activities and the decision-making process. The City of Sacramento is divided into four geographic areas, each with an area director and an "area team", comprised of staff from several different City departments. Each team is responsible for coordinating the delivery of a variety of services in that geographical area. Area team members include:

- *Administration:* coordinate and provide general support to the area team;

- *Parks and Recreation:* maintain park and recreational facilities and provide programs in each neighborhood;
- *Athletics:* provide recreational sports leagues and activities and coordinate athletic field permits for community sports groups;
- *Tree Services:* provide a maintenance program for Sacramento's urban forest, including public street and park trees;
- *Code Enforcement:* investigate various code and vehicle abatement complaints and enforce City ordinances, including prohibitions against junk and debris, abandoned and/or inoperable vehicles and zoning violations;
- *Housing and Dangerous Buildings:* inspect housing and enforce housing construction codes on dangerous, substandard and/or vacant buildings and coordinate enforcement of the City's Social Nuisance Ordinance;
- *Neighborhood Resources:* serve as liaisons to neighborhood and community groups by providing information and assistance in establishing or enhancing neighborhood organizations and provide information on anti-gang, drugs and graffiti programs;
- *Police:* the liaison to the Police Department works with area team members and residents on specific problems;
- *Fire:* the liaison to the Fire Department serves as a resource for education, prevention and special neighborhood clean-ups in each area;
- *Traffic:* investigate traffic complaints and conduct traffic studies and surveys;
- *Planning:* provide information, guidance and review on planning, zoning and development issues;
- *Housing and Redevelopment:* assist and inform area team staff and the community regarding programs and projects in Sacramento Housing and Redevelopment Agency (SHRA) targeted neighborhoods in each area;
- *Employment and Training:* provide the area with a link to employment services and programs and provide

BOARD OF SUPERVISORS
BUDGET ANALYST

Memo to Select Committee on Charter Implementation
April 23, 1996 Select Committee on Charter Implementation Meeting

employment assistance for neighborhood revitalization efforts; and

- *The Downtown Partnership:* provides a link to issues, planning and events in the downtown Sacramento area.

Additionally, the Neighborhood Services Department provides a central telephone number or "public response system" which residents from all four areas can use to obtain general information on City services.

2. Mr. Ziegenfuss advises that, in 1993, Sacramento faced a significant budgetary deficit. According to Mr. Ziegenfuss, the creation of the Neighborhood Services Department at that time allowed the City to make the necessary reductions in the budget while at the same time minimizing the negative impact on the level of services provided by the City. According to Mr. Ziegenfuss, Sacramento's Neighborhood Services Department was formed by reallocating existing staff in various City departments to the new Neighborhood Services Department and by reorganizing and consolidating existing City functions into one department, thereby enabling Sacramento to streamline operations and reduce managerial and administrative positions. Mr. Ziegenfuss advises that, although over 500 positions were eliminated when the Neighborhood Services Department was created, many of these positions would have been eliminated in any case, but that the elimination of these positions would have significantly reduced the level of services provided by the City if the new Neighborhood Services Department had not been created.

Mr. Dave Martinez, Deputy City Manager of Sacramento, confirms that existing staff and resources were used to establish the Neighborhood Services Department in Sacramento. Additionally, Mr. Martinez advises that since Sacramento's Neighborhood Services Department was originally created, City government has actually been able to provide additional services at no additional costs to the City. For example, the Neighborhood Services Department has created volunteer programs in which City residents participate in order to clean up graffiti, vandalism and garbage throughout the City. The formation of the Neighborhood Services Department in Sacramento, according to Mr. Martinez, has enabled the City to streamline operations, enhance communication with residents, and provide additional units of service using existing resources.

BOARD OF SUPERVISORS
BUDGET ANALYST

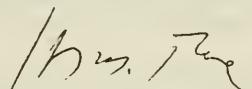

Memo to Select Committee on Charter Implementation

April 23, 1996 Select Committee on Charter Implementation Meeting

Additionally, Mr. Ziegenfuss advises that the creation of Neighborhood Services Department in San Francisco could enable the City to streamline operations and increase efficiencies by allowing the City to eliminate duplicative functions and administrative positions through the consolidation of existing staff and functions under one department.

3. According to the Office of the Sponsor, the San Francisco Commission on the Aging's "Senior Centrals" program provides a model for the proposed Department of Neighborhood Services. The Senior Services Plan, approved by the Board of Supervisors in 1994, called for the development of 10 Senior Centrals throughout the City to provide one-stop neighborhood access for seniors to an expanded range of services and information. Each Senior Central is responsible for (a) providing information and referral, assistance and follow-up services to seniors within that district; (b) developing and maintaining outreach activities; (c) providing access to services; (d) organizing volunteer networks to identify neighborhood needs; and (e) coordinating with businesses, churches and other resources within the community.

4. According to Mr. Ted Lakey of the City Attorney's Office, the creation of the proposed Department of Neighborhood Services would require the approval of a Charter Amendment by San Francisco voters only if certain functions of the new Department of Neighborhood Services were in conflict with or were prohibited by existing provisions of the Charter. However, Mr. Lakey advises that, at this time, there appears to be nothing inherent about the proposed Department of Neighborhood Services that would require a Charter Amendment.

SAN FRANCISCO
PUBLIC LIBRARY

Item 4 - File 293-95-1

Note: This item was continued by the Select Committee on Charter Implementation at its meeting of May 28, 1996.

Item: Hearing to consider the creation of the Department of Neighborhood Services.

Description: This hearing is to consider the creation of a new Department of Neighborhood Services. According to the Office of the Sponsor of this hearing, the creation of a Department of Neighborhood Services would entail the formation of a number of inter-disciplinary teams, consisting of existing staff from various City departments, who would provide basic City services, such as, for example, code enforcement, planning, tree services and parks and recreation, to individual neighborhoods. The Office of the Sponsor advises that citizens would be able to obtain information from one centralized department for any type of problem which citizens may be having by contacting staff in the proposed new Department of Neighborhood Services. The Office of the Sponsor advises that the new department would be formed by transferring existing staff from other City departments into the Department of Neighborhood Services.

According to the Office of the Sponsor, the Department of Neighborhood Services would enable the City to consolidate key neighborhood-related services into one unit, thereby combining resources in a more focused manner and improving the City's response to neighborhood problems, concerns and issues. The Office of the Sponsor advises that the potential benefits of the proposed Department of Neighborhood Services include (1) coordinated delivery of a variety of City services to residents; (2) easy accessibility for citizen inquiry; (3) quick resolution of neighborhood problems; (4) greater accountability to neighborhood issues; (5) increased citizen participation in decision-making; and (6) budget savings through the elimination of duplicative administrative positions and functions.

According to the Office of the Sponsor, the proposed Department of Neighborhood Services could include consolidated services related to parks and recreation, code enforcement, nuisance abatement, parking and traffic coordination, public safety, planning, and/or permit procedures. The Office of the Sponsor advises that, through a series of planned hearings, a list of reforms and initiatives which address immediate concerns and the steps necessary to create the Department of Neighborhood Services should be developed before the Department of Neighborhood Services is finally established.

Comments:

1. After a series of public hearings, the City of Sacramento created a Neighborhood Services Department in 1994. According to Mr. Gary Ziegenfuss of Sacramento's Neighborhood Services Department, the specific purposes of Sacramento's Department of Neighborhood Services are to (a) provide coordinated and comprehensive delivery of neighborhood-related services; (b) improve accessibility to City government; (c) increase government responsiveness; and (d) increase citizen participation in City programs, activities and the decision-making process. The City of Sacramento is divided into four geographic areas, each with an area director and an "area team", comprised of staff from several different City departments. Each team is responsible for coordinating the delivery of a variety of services in that geographical area. Area team members include:

- *Administration:* coordinate and provide general support to the area team;
- *Parks and Recreation:* maintain park and recreational facilities and provide programs in each neighborhood;

Memo to Select Committee on Charter Implementation
June 25, 1996 Select Committee on Charter Implementation Meeting

- *Athletics:* provide recreational sports leagues and activities and coordinate athletic field permits for community sports groups;
- *Tree Services:* provide a maintenance program for Sacramento's urban forest, including public street and park trees;
- *Code Enforcement:* investigate various code and vehicle abatement complaints and enforce City ordinances, including prohibitions against junk and debris, abandoned and/or inoperable vehicles and zoning violations;
- *Housing and Dangerous Buildings:* inspect housing and enforce housing construction codes on dangerous, substandard and/or vacant buildings and coordinate enforcement of the City's Social Nuisance Ordinance;
- *Neighborhood Resources:* serve as liaisons to neighborhood and community groups by providing information and assistance in establishing or enhancing neighborhood organizations and provide information on anti-gang, drugs and graffiti programs;
- *Police:* the liaison to the Police Department works with area team members and residents on specific problems;
- *Fire:* the liaison to the Fire Department serves as a resource for education, prevention and special neighborhood clean-ups in each area;
- *Traffic:* investigate traffic complaints and conduct traffic studies and surveys;
- *Planning:* provide information, guidance and review on planning, zoning and development issues;
- *Housing and Redevelopment:* assist and inform area team staff and the community regarding programs and projects in Sacramento Housing and Redevelopment Agency (SHRA) targeted neighborhoods in each area;
- *Employment and Training:* provide the area with a link to employment services and programs and provide employment assistance for neighborhood revitalization efforts; and
- *The Downtown Partnership:* provides a link to issues, planning and events in the downtown Sacramento area.

BOARD OF SUPERVISORS
BUDGET ANALYST

Additionally, the Neighborhood Services Department provides a central telephone number or "public response system" which residents from all four areas can use to obtain general information on City services.

2. Mr. Ziegenfuss advises that, in 1993, Sacramento faced a significant budgetary deficit. According to Mr. Ziegenfuss, the creation of the Neighborhood Services Department at that time allowed the City to make the necessary reductions in the budget while at the same time minimizing the negative impact on the level of services provided by the City. According to Mr. Ziegenfuss, Sacramento's Neighborhood Services Department was formed by reallocating existing staff in various City departments to the new Neighborhood Services Department and by reorganizing and consolidating existing City functions into one department, thereby enabling Sacramento to streamline operations and reduce managerial and administrative positions. Mr. Ziegenfuss advises that, although over 500 positions were eliminated when the Neighborhood Services Department was created, many of these positions would have been eliminated in any case, but that the elimination of these positions would have significantly reduced the level of services provided by the City if the new Neighborhood Services Department had not been created.

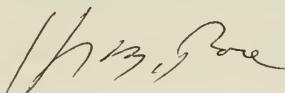

Mr. Dave Martinez, Deputy City Manager of Sacramento, confirms that existing staff and resources were used to establish the Neighborhood Services Department in Sacramento. Additionally, Mr. Martinez advises that since Sacramento's Neighborhood Services Department was originally created, City government has actually been able to provide additional services at no additional costs to the City. For example, the Neighborhood Services Department has created volunteer programs in which City residents participate in order to clean up graffiti, vandalism and garbage throughout the City. The formation of the Neighborhood Services Department in Sacramento, according to Mr. Martinez, has enabled the City to streamline operations, enhance communication with residents, and provide additional units of service using existing resources.

Additionally, Mr. Ziegenfuss advises that the creation of Neighborhood Services Department in San Francisco could enable the City to streamline operations and increase efficiencies by allowing the City to eliminate duplicative functions and administrative positions through the consolidation of existing staff and functions under one department.

Memo to Select Committee on Charter Implementation
June 25, 1996 Select Committee on Charter Implementation Meeting

3. According to the Office of the Sponsor, the San Francisco Commission on the Aging's "Senior Centrals" program provides a model for the proposed Department of Neighborhood Services. The Senior Services Plan, approved by the Board of Supervisors in 1994, called for the development of 10 Senior Centrals throughout the City to provide one-stop neighborhood access for seniors to an expanded range of services and information. Each Senior Central is responsible for (a) providing information and referral, assistance and follow-up services to seniors within that district; (b) developing and maintaining outreach activities; (c) providing access to services; (d) organizing volunteer networks to identify neighborhood needs; and (e) coordinating with businesses, churches and other resources within the community.

4. According to Mr. Ted Lakey of the City Attorney's Office, the creation of the proposed Department of Neighborhood Services would require the approval of a Charter Amendment by San Francisco voters only if certain functions of the new Department of Neighborhood Services were in conflict with or were prohibited by existing provisions of the Charter. However, Mr. Lakey advises that, at this time, there appears to be nothing inherent about the proposed Department of Neighborhood Services that would require a Charter Amendment.

SUBJECT: August 27, 1996 Select Committee on Charter Implementation Meeting

Item 5 - File 293-95-1

Note: This item was continued by the Select Committee on Charter Implementation at its meeting of July 23, 1996.

Item: Hearing to consider the creation of the Department of Neighborhood Services.

Description: This hearing is to consider the creation of a new Department of Neighborhood Services. According to the Office of the Sponsor of this hearing, the creation of a Department of Neighborhood Services would entail the formation of a number of inter-disciplinary teams, consisting of existing staff from various City departments, who would provide basic City services, such as, for example, code enforcement, planning, tree services and parks and recreation, to individual neighborhoods. The Office of the Sponsor advises that citizens would be able to obtain information from one centralized department for any type of problem which citizens may be having by contacting staff in the proposed new Department of Neighborhood Services. The Office of the Sponsor advises that the new department would be formed by transferring existing staff from other City departments into the Department of Neighborhood Services.

Memo to Select Committee on Charter Implementation
August 27, 1996 Select Committee on Charter Implementation Meeting

According to the Office of the Sponsor, the Department of Neighborhood Services would enable the City to consolidate key neighborhood-related services into one unit, thereby combining resources in a more focused manner and improving the City's response to neighborhood problems, concerns and issues. The Office of the Sponsor advises that the potential benefits of the proposed Department of Neighborhood Services include (1) coordinated delivery of a variety of City services to residents; (2) easy accessibility for citizen inquiry; (3) quick resolution of neighborhood problems; (4) greater accountability to neighborhood issues; (5) increased citizen participation in decision-making; and (6) budget savings through the elimination of duplicative administrative positions and functions.

According to the Office of the Sponsor, the proposed Department of Neighborhood Services could include consolidated services related to parks and recreation, code enforcement, nuisance abatement, parking and traffic coordination, public safety, planning, and/or permit procedures. The Office of the Sponsor advises that, through a series of planned hearings, a list of reforms and initiatives which address immediate concerns and the steps necessary to create the Department of Neighborhood Services should be developed before the Department of Neighborhood Services is finally established.

Comments:

1. After a series of public hearings, the City of Sacramento created a Neighborhood Services Department in 1994. According to Mr. Gary Ziegenfuss of Sacramento's Neighborhood Services Department, the specific purposes of Sacramento's Department of Neighborhood Services are to (a) provide coordinated and comprehensive delivery of neighborhood-related services; (b) improve accessibility to City government; (c) increase government responsiveness; and (d) increase citizen participation in City programs, activities and the decision-making process. The City of Sacramento is divided into four geographic areas, each with an area director and an "area team", comprised of staff from several different City departments. Each team is responsible for coordinating the delivery of a variety of services in that geographical area. Area team members include:

- *Administration:* coordinate and provide general support to the area team;
- *Parks and Recreation:* maintain park and recreational facilities and provide programs in each neighborhood;

Memo to Select Committee on Charter Implementation
August 27, 1996 Select Committee on Charter Implementation Meeting

- *Athletics:* provide recreational sports leagues and activities and coordinate athletic field permits for community sports groups;
- *Tree Services:* provide a maintenance program for Sacramento's urban forest, including public street and park trees;
- *Code Enforcement:* investigate various code and vehicle abatement complaints and enforce City ordinances, including prohibitions against junk and debris, abandoned and/or inoperable vehicles and zoning violations;
- *Housing and Dangerous Buildings:* inspect housing and enforce housing construction codes on dangerous, substandard and/or vacant buildings and coordinate enforcement of the City's Social Nuisance Ordinance;
- *Neighborhood Resources:* serve as liaisons to neighborhood and community groups by providing information and assistance in establishing or enhancing neighborhood organizations and provide information on anti-gang, drugs and graffiti programs;
- *Police:* the liaison to the Police Department works with area team members and residents on specific problems;
- *Fire:* the liaison to the Fire Department serves as a resource for education, prevention and special neighborhood clean-ups in each area;
- *Traffic:* investigate traffic complaints and conduct traffic studies and surveys;
- *Planning:* provide information, guidance and review on planning, zoning and development issues;
- *Housing and Redevelopment:* assist and inform area team staff and the community regarding programs and projects in Sacramento Housing and Redevelopment Agency (SHRA) targeted neighborhoods in each area;
- *Employment and Training:* provide the area with a link to employment services and programs and provide employment assistance for neighborhood revitalization efforts; and
- *The Downtown Partnership:* provides a link to issues, planning and events in the downtown Sacramento area.

BOARD OF SUPERVISORS
BUDGET ANALYST

Additionally, the Neighborhood Services Department provides a central telephone number or "public response system" which residents from all four areas can use to obtain general information on City services.

2. Mr. Ziegenfuss advises that, in 1993, Sacramento faced a significant budgetary deficit. According to Mr. Ziegenfuss, the creation of the Neighborhood Services Department at that time allowed the City to make the necessary reductions in the budget while at the same time minimizing the negative impact on the level of services provided by the City. According to Mr. Ziegenfuss, Sacramento's Neighborhood Services Department was formed by reallocating existing staff in various City departments to the new Neighborhood Services Department and by reorganizing and consolidating existing City functions into one department, thereby enabling Sacramento to streamline operations and reduce managerial and administrative positions. Mr. Ziegenfuss advises that, although over 500 positions were eliminated when the Neighborhood Services Department was created, many of these positions would have been eliminated in any case, but that the elimination of these positions would have significantly reduced the level of services provided by the City if the new Neighborhood Services Department had not been created.

Mr. Dave Martinez, Deputy City Manager of Sacramento, confirms that existing staff and resources were used to establish the Neighborhood Services Department in Sacramento. Additionally, Mr. Martinez advises that since Sacramento's Neighborhood Services Department was originally created, City government has actually been able to provide additional services at no additional costs to the City. For example, the Neighborhood Services Department has created volunteer programs in which City residents participate in order to clean up graffiti, vandalism and garbage throughout the City. The formation of the Neighborhood Services Department in Sacramento, according to Mr. Martinez, has enabled the City to streamline operations, enhance communication with residents, and provide additional units of service using existing resources.

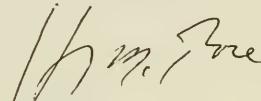

Additionally, Mr. Ziegenfuss advises that the creation of Neighborhood Services Department in San Francisco could enable the City to streamline operations and increase efficiencies by allowing the City to eliminate duplicative functions and administrative positions through the consolidation of existing staff and functions under one department.

BUDGET ANALYST

Memo to Select Committee on Charter Implementation
August 27, 1996 Select Committee on Charter Implementation Meeting

3. According to the Office of the Sponsor, the San Francisco Commission on the Aging's "Senior Centrals" program provides a model for the proposed Department of Neighborhood Services. The Senior Services Plan, approved by the Board of Supervisors in 1994, called for the development of 10 Senior Centrals throughout the City to provide one-stop neighborhood access for seniors to an expanded range of services and information. Each Senior Central is responsible for (a) providing information and referral, assistance and follow-up services to seniors within that district; (b) developing and maintaining outreach activities; (c) providing access to services; (d) organizing volunteer networks to identify neighborhood needs; and (e) coordinating with businesses, churches and other resources within the community.

4. According to Mr. Ted Lakey of the City Attorney's Office, the creation of the proposed Department of Neighborhood Services would require the approval of a Charter Amendment by San Francisco voters only if certain functions of the new Department of Neighborhood Services were in conflict with or were prohibited by existing provisions of the Charter. However, Mr. Lakey advises that, at this time, there appears to be nothing inherent about the proposed Department of Neighborhood Services that would require a Charter Amendment.

SUBJECT: October 22, 1996 Select Committee on Charter Implementation
Meeting

SAN FRANCISCO
PUBLIC LIBRARY

Item 4 - File 293-95-1

Note: This item was continued by the Select Committee on Charter Implementation at its meeting of August 27, 1996.

Item: Hearing to consider the creation of the Department of Neighborhood Services.

Description: This hearing is to consider the creation of a new Department of Neighborhood Services. According to the Office of the Sponsor of this hearing, the creation of a Department of Neighborhood Services would entail the formation of a number of inter-disciplinary teams, consisting of existing staff from various City departments, who would provide basic City services, such as, for example, code enforcement, planning, tree services and parks and recreation, to individual neighborhoods. The Office of the Sponsor advises that citizens would be able to obtain information from one centralized department for any type of problem which citizens may be having by contacting staff in the proposed new Department of Neighborhood Services. The Office of the Sponsor advises that the new department would be formed by transferring existing staff

Memo to Select Committee on Charter Implementation
October 22, 1996 Select Committee on Charter Implementation Meeting

from other City departments into the Department of Neighborhood Services.

According to the Office of the Sponsor, the Department of Neighborhood Services would enable the City to consolidate key neighborhood-related services into one unit, thereby combining resources in a more focused manner and improving the City's response to neighborhood problems, concerns and issues. The Office of the Sponsor advises that the potential benefits of the proposed Department of Neighborhood Services include (1) coordinated delivery of a variety of City services to residents; (2) easy accessibility for citizen inquiry; (3) quick resolution of neighborhood problems; (4) greater accountability to neighborhood issues; (5) increased citizen participation in decision-making; and (6) budget savings through the elimination of duplicative administrative positions and functions.

According to the Office of the Sponsor, the proposed Department of Neighborhood Services could include consolidated services related to parks and recreation, code enforcement, nuisance abatement, parking and traffic coordination, public safety, planning, and/or permit procedures. The Office of the Sponsor advises that, through a series of planned hearings, a list of reforms and initiatives which address immediate concerns and the steps necessary to create the Department of Neighborhood Services should be developed before the Department of Neighborhood Services is finally established.

Comments:

1. After a series of public hearings, the City of Sacramento created a Neighborhood Services Department in 1994. According to Mr. Gary Ziegenfuss of Sacramento's Neighborhood Services Department, the specific purposes of Sacramento's Department of Neighborhood Services are to (a) provide coordinated and comprehensive delivery of neighborhood-related services; (b) improve accessibility to City government; (c) increase government responsiveness; and (d) increase citizen participation in City programs, activities and the decision-making process. The City of Sacramento is divided into four geographic areas, each with an area director and an "area team", comprised of staff from several different City departments. Each team is responsible for coordinating the delivery of a variety of services in that geographical area. Area team members include:

- *Administration:* coordinate and provide general support to the area team;

- *Parks and Recreation:* maintain park and recreational facilities and provide programs in each neighborhood;
- *Athletics:* provide recreational sports leagues and activities and coordinate athletic field permits for community sports groups;
- *Tree Services:* provide a maintenance program for Sacramento's urban forest, including public street and park trees;
- *Code Enforcement:* investigate various code and vehicle abatement complaints and enforce City ordinances, including prohibitions against junk and debris, abandoned and/or inoperable vehicles and zoning violations;
- *Housing and Dangerous Buildings:* inspect housing and enforce housing construction codes on dangerous, substandard and/or vacant buildings and coordinate enforcement of the City's Social Nuisance Ordinance;
- *Neighborhood Resources:* serve as liaisons to neighborhood and community groups by providing information and assistance in establishing or enhancing neighborhood organizations and provide information on anti-gang, drugs and graffiti programs;
- *Police:* the liaison to the Police Department works with area team members and residents on specific problems;
- *Fire:* the liaison to the Fire Department serves as a resource for education, prevention and special neighborhood clean-ups in each area;
- *Traffic:* investigate traffic complaints and conduct traffic studies and surveys;
- *Planning:* provide information, guidance and review on planning, zoning and development issues;
- *Housing and Redevelopment:* assist and inform area team staff and the community regarding programs and projects in Sacramento Housing and Redevelopment Agency (SHRA) targeted neighborhoods in each area;
- *Employment and Training:* provide the area with a link to employment services and programs and provide

BOARD OF SUPERVISORS
BUDGET ANALYST

Memo to Select Committee on Charter Implementation
October 22, 1996 Select Committee on Charter Implementation Meeting

employment assistance for neighborhood revitalization efforts; and

- *The Downtown Partnership:* provides a link to issues, planning and events in the downtown Sacramento area.

Additionally, the Neighborhood Services Department provides a central telephone number or "public response system" which residents from all four areas can use to obtain general information on City services.

2. Mr. Ziegenfuss advises that, in 1993, Sacramento faced a significant budgetary deficit. According to Mr. Ziegenfuss, the creation of the Neighborhood Services Department at that time allowed the City to make the necessary reductions in the budget while at the same time minimizing the negative impact on the level of services provided by the City. According to Mr. Ziegenfuss, Sacramento's Neighborhood Services Department was formed by reallocating existing staff in various City departments to the new Neighborhood Services Department and by reorganizing and consolidating existing City functions into one department, thereby enabling Sacramento to streamline operations and reduce managerial and administrative positions. Mr. Ziegenfuss advises that, although over 500 positions were eliminated when the Neighborhood Services Department was created, many of these positions would have been eliminated in any case, but that the elimination of these positions would have significantly reduced the level of services provided by the City if the new Neighborhood Services Department had not been created.

Mr. Dave Martinez, Deputy City Manager of Sacramento, confirms that existing staff and resources were used to establish the Neighborhood Services Department in Sacramento. Additionally, Mr. Martinez advises that since Sacramento's Neighborhood Services Department was originally created, City government has actually been able to provide additional services at no additional costs to the City. For example, the Neighborhood Services Department has created volunteer programs in which City residents participate in order to clean up graffiti, vandalism and garbage throughout the City. The formation of the Neighborhood Services Department in Sacramento, according to Mr. Martinez, has enabled the City to streamline operations, enhance communication with residents, and provide additional units of service using existing resources.

Additionally, Mr. Ziegenfuss advises that the creation of Neighborhood Services Department in San Francisco could enable the City to streamline operations and increase efficiencies by allowing the City to eliminate duplicative functions and administrative positions through the consolidation of existing staff and functions under one department.

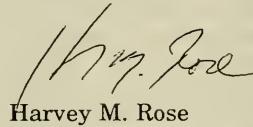

3. According to the Office of the Sponsor, the San Francisco Commission on the Aging's "Senior Centrals" program provides a model for the proposed Department of Neighborhood Services. The Senior Services Plan, approved by the Board of Supervisors in 1994, called for the development of 10 Senior Centrals throughout the City to provide one-stop neighborhood access for seniors to an expanded range of services and information. Each Senior Central is responsible for (a) providing information and referral, assistance and follow-up services to seniors within that district; (b) developing and maintaining outreach activities; (c) providing access to services; (d) organizing volunteer networks to identify neighborhood needs; and (e) coordinating with businesses, churches and other resources within the community.

4. The Mayor's Assistance and Neighborhood Outreach Office (MANO), with the assistance of the Department of Public Works, and the Recreation and Park Department, is in the process of implementing a Neighborhood Services Demonstration Project to determine the effectiveness of a San Francisco Department of Neighborhood Services in addressing the needs of the public, according to a draft report that describes the Neighborhood Services Demonstration Project. The goals of the Neighborhood Services Demonstration Project include: (a) providing the public with easy access to public information, programs and services, (b) bringing City programs and services into the neighborhoods, (c) responding to customer requests quickly and efficiently, and (d) making City departments more accountable and aware of neighborhood issues, according to the draft report. The Neighborhood Services Demonstration Project will be implemented in three phases, over a three-month period beginning in November of 1996 through January of 1997. The Office of the Sponsor advises that there will be a representative from MANO and the Department of Public Works in attendance at the October 22, 1996 Select Committee on Charter Implementation Meeting to provide additional information, and to answer questions about the Neighborhood Services Demonstration Project. The Office of the Sponsor advises

Memo to Select Committee on Charter Implementation
October 22, 1996 Select Committee on Charter Implementation Meeting

that the Neighborhood Services Demonstration Project will be implemented utilizing existing City personnel.

5. According to Mr. Ted Lakey of the City Attorney's Office, the creation of the proposed Department of Neighborhood Services would require the approval of a Charter Amendment by San Francisco voters only if certain functions of the new Department of Neighborhood Services were in conflict with or were prohibited by existing provisions of the Charter. However, Mr. Lakey advises that, at this time, there appears to be nothing inherent about the proposed Department of Neighborhood Services that would require a Charter Amendment.
